

Technologies that enhance digital transformation and boost performance.

■ APPMAN OCR

Optical Character Recognition technology brings new opportunities to increase efficiency and performance in several key processes plus bringing new experiences to end users.

New digital experiences built around OCR. Discover how to change your customer journey.

OCR as a security measure can reduce the risk of fraud, increase data security, and consistency.

Get rid of excessive documents, OCR as a process enhancer will help you on this task.

OCR SOLUTIONS

On secure cloud

On-Premise

Google Chrome Extension add-on

We have three different OCR solutions that comply with all your security standards and integration requirements.

CERTIFICATIONS THAT GIVE YOU EASE OF MIND

CSA cloud security alliance™

IS 649645

With our **ISO/IEC 27001** and **CSA-STAR Level 2**, we can provide a solution with banking grade security software. You can be sure that your information and your customers will be securely kept within your servers or in the cloud.
